

VOLUNTEER MARINE RESCUE WHITSUNDA

Module : Flybridge Access
Type: SOP
Version: 1

STANDARD OPERATING PROCEDURES (SOP) FLYBRIDGE ACCESS

1. Introduction

This SOP describes the procedures for safe access to the Flybridge of VMR1. It is the responsibility of every crew member to follow this procedure.

2. Reference

VMR Training – Risk Assessment 23 July, 2017

3. Detailed Procedures

Crew to get skipper's permission prior to going up or down the ladder.

Three points of contact must be maintained going up and down.

Minimise movement in rough conditions.

Maximum 6 persons on flybridge

Inform skipper that crewman is safely back on the cockpit deck.

Passengers not permitted on flybridge

4. Summary

If we all follow these guidelines we will be less likely to have problems/injuries whilst accessing the flybridge.
